The LIMESTONE COLLECTION

2017/18

Our new collection shows a clear architectural form in a series of designs which ensures the fireplace is the focus of your living space.

Material

Our surrounds are carved from Aegean limestone, a white natural stone sourced from the Mediterranean coast line of Greece and Turkey. This natural material features a slight grain with a consistent and uniform based tone creating a natural shading.

Design

Each of our designs are adaptable to various interior styles and are popular with interior designers making them the most sought after designs for 2017/18. Each surround design is carved with an expert hand and chosen for you based on a high quality of finish. Choose the perfect design with confidence.

Customer service

Each retailer for our high-quality design range is chosen based on their high level of customer care and after sales service. Choose one of our designs for your living space from one of our carefully selected retailers. Buy with confidence knowing you are choosing quality and service.
