GAS FIRES & STOVES 2018 - 2019

# GAS STOVES

## TIGER GAS

- FUEL TYPE  
Gas
- HEAT OUTPUT  
Up to 5kW
- EFFICIENCY  
Up to 73%
- FLUE DIAMETER  
125mm
- DIMENSIONS (mm)  
(H)590 x (W)570 X (D)420

## FIREFOX 5 GAS

- FUEL TYPE  
Gas
- HEAT OUTPUT  
Up to 4kW
- EFFICIENCY  
Up to 73%
- FLUE DIAMETER  
125mm
- DIMENSIONS (mm)  
(H)580 x (W)405 X (D)445

## FIREFOX 8 GAS

- FUEL TYPE  
Gas
- HEAT OUTPUT  
Up to 5kW
- EFFICIENCY  
Up to 73%
- FLUE DIAMETER  
125mm
- DIMENSIONS (mm)  
(H)605 x (W)555 X (D)425\*

Shown with high definition ceramic logs

# INSET CONVECTOR GAS FIRES

Inset convector gas fires shown above come in 2 pieces: the convector engine; and the one piece decorative frame. See Gallery Green brochure for more details.

# DECORATIVE GAS FIRES

DECORATIVE GAS FIRES SUITABLE FOR:  
**CAST IRON INSETS  
/FIREBACKS**

See Gallery Purple brochure for a full range of cast iron insets (all of which come with a decorative gas fire option to suit the specific cast iron / concrete back).

DECORATIVE GAS FIRES SUITABLE FOR:  
**FIRE BASKETS**

See Gallery Purple brochure for a full range of fire baskets (all of which come with a decorative gas fire option to suit the specific basket).

# SUMMARY

## GAS STOVES

Stove	Output (up to)	Efficiency (up to)	Flue Diameter	Dimensions (HxWxD) mm	Fuel	ErP
Firefox 5 Gas	4kw	73%	125mm	580x405x445*	NG / LPG	D
Firefox 8 Gas **	5kw	73%	125mm	605x555x425*	NG / LPG	E
Tiger Gas **	5kw	73%	125mm	590x570x420*	NG / LPG	E

\* Depth includes rear flue diverter box. \*\* Remote control option available

## INSET CONVECTOR GAS FIRES

Fire Type	1. Class 1 Open Fronted Convector	2. Class 2 Open Fronted Convector	3. High Efficiency Glass Fronted
<b>Fire Description</b>	A full depth fire suitable for Class 1 chimneys. Convector fires offer greater efficiency ratings than standard open fronted fires. Manual or slide control options available.	This fire type has the same features as the Class 1 version but with a reduced depth to suit a Class 2 chimney type. This is normally indicated by a more shallow fuel bed.	Featuring a glass fronted, full depth ceramic coal fuel bed, these engines are the most efficient of all fire types. A Class 2 slim line version also is available for GALLERY fires.
<b>Fuel</b>	NG / LPG	NG / LPG	NG Only
<b>Input/Output</b>	6.9kW / 4.0kW	6.9kW / 3.8kW	5kW / 4.0kW
<b>Efficiency</b>	58%	55%	80%
<b>ErP</b>	F	F	C

## DECORATIVE GAS FIRES

Input	Fuel
6.4 kW – 10.9kW	NG / LPG

### Installation

All installations must be carried out in accordance with the requirements set out in the Building Regulation documents, in particular, Approved Document J. Independent bodies have been approved to carry out installations in accordance with these regulations. For gas installations the most recognised independent body is GAS SAFE REGISTER (Board Gais in ROI) and for solid fuel installations it is HETAS. Please confirm with your retailer that your new fireplace will be installed appropriately. If your new fireplace is fitted by a GAS SAFE REGISTER (Board Gais in ROI) or HETAS registered fitter you will be given a certificate stating that your installation has been carried out in accordance with the Building Regulations. If you do not have one of these certificates then you must arrange for your local Building Control Officer to inspect your installation and approve it.

### Aftercare

A gas fire is a technical piece of equipment and, just like a gas boiler needs regular servicing. Please ensure that you have your gas fire serviced regularly by a GAS SAFE REGISTER (Board Gais in ROI) registered installer. This will help you enjoy safe and trouble free enjoyment of your fireplace for years to come and may be a requirement of the Government's Home Information Pack.

There are occasions when designs, or products are altered or discontinued without prior notice (a reserved right). Please consult your retailer before making your final choice.
