Luxury fired by design

WE TAKE GREAT PRIDE IN  
OUR FIREPLACES. EVERY  
STONE OR MARBLE  
CHIMNEYPIECE THAT WE  
MAKE HAS A CHESNEYS  
PLAQUE SET INTO THE  
REVERSE OF THE MANTEL.  
THIS IS OUR HALLMARK.  
IF YOU DON'T SEE THE  
PLAQUE IT ISN'T ONE OF  
OUR FIREPLACES

## AN INTRODUCTION TO CHESNEYS

For many years we have restored antique fireplaces at our workshops in London. Conserving and reviving an 18th century marble chimneypiece is a painstaking exercise which requires an extraordinary level of skill, expertise and patience.

There can be no compromises in the process, and it is this rigorous approach which has guided the development of our entire range of designs over the years, and which has come to set a Chesneys fireplace apart from all others.

A fireplace should be the primary focus of any room, and therefore we ensure that every one of our fireplaces embodies the finest craftsmanship and integrity of design.

This new brochure is our most comprehensive to date. We have added new designs to our established Historical and Contemporary Collections, the latter showcasing the talents of contemporary designers, most recently in collaboration with the renowned New York designer, Eric Cohler.

We have also added an exciting new range of bio ethanol fires to suit both traditional and contemporary interiors where a flue is not available.

Our ranges of wood burning stoves, gas fires and fireside accessories all make an appearance on the following pages but can be seen in more detail in separate standalone brochures.

I hope that you will find plenty to enjoy.

# A CHESNEYS FIREPLACE

SHOULD BE THE BEST THERE IS

THAT WAS OUR AIM WHEN WE FOUNDED THE COMPANY OVER 30 YEARS AGO AND IT REMAINS THE SAME TODAY. IN SETTING OUT TO ACHIEVE THIS WE REMAIN PASSIONATELY COMMITTED TO OUR KEY VALUES.

## DESIGN

Integrity of design is intrinsic to every Chesneys fireplace. Our period fireplaces are exact copies of antique originals recognised by conservation bodies worldwide for their authenticity. Our contemporary fireplaces are the handiwork of leading contemporary designers to reflect current trends in interior decoration.

## CRAFTSMANSHIP

Outstanding craftsmanship means using traditional techniques in our manufacturing whether hand carving a marble chimneypiece or forging steel on a blacksmith's anvil. These are labour intensive and highly skilled processes for which there is no substitute.

## MATERIALS

We consistently search for the finest materials, visiting quarries throughout Europe and Asia. We are forever looking to add to the range, and quality of materials that we offer, and to find original and inventive ways of using these new materials.

## INNOVATION

Our aim is always to innovate. We continually work on new design concepts and ways to refine our existing products. This brochure introduces many new products, including additions to both our period and contemporary ranges as well as our 'museum' collections.

A close-up photograph of several slabs of natural stone and marble. The stones are arranged in a way that shows their unique patterns and textures. One slab on the left has a prominent yellow and black veining. Another slab in the center has a more complex, multi-colored pattern. The background is a warm, reddish-brown color, possibly a wall or another piece of stone. The overall composition is artistic and emphasizes the natural beauty and craftsmanship of the materials.

# SPECIAL MATERIALS COLLECTION

A COLLECTION OF RARE AND BEAUTIFUL NATURAL MARBLES FOR  
THE MANUFACTURE OF FIREPLACES

---

Chesneys have re-visited the eighteenth century practice of sourcing rare and beautiful materials for use in the design of fireplaces.

In some cases it is as much the material as the design that gives a fireplace its unique appeal. On the following pages are examples of a number of rare and beautiful natural marbles that Chesneys holds at its factories. Many of the designs in our standard range can be executed in these materials as can client's bespoke designs, depending on the availability of material from time to time.

These materials originate from quarries throughout Europe and further afield. The images shown of the various materials can only be broadly indicative as colour and veining change with every block that is quarried.

*Pages 32 - 35*

*Opposite* The simple architectural form of a bolection moulding is the ideal vehicle for vibrantly coloured and strongly figured French Breche de Vendome marble.

THE CHESNEYS  
SPECIAL MATERIALS  
COLLECTION PROVIDES  
THE OPPORTUNITY  
TO COMMISSION A  
FIREPLACE THAT WILL  
BE GENUINELY UNIQUE  
IN ITS APPEARANCE  
AND DRAMATIC IN ITS  
IMPACT ON THE  
DESIGN OF A ROOM.

IN COLLABORATION WITH SIR JOHN SOANE'S MUSEUM, THE GEORGIAN SOCIETY  
AND THE LUTYENS TRUST, CHESNEYS HAS RE-CREATED CHIMNEYPiece DESIGNS BY SOME  
OF THE OUTSTANDING BRITISH ARCHITECTS FROM THE 18TH CENTURY ONWARDS

# THE SOANE COLLECTION

A COLLECTION OF EXACT REPLICAS OF DESIGNS FOR CHIMNEYPieces FROM THE ARCHIVES OF SIR JOHN SOANE'S MUSEUM UNDER EXCLUSIVE LICENCE

The first modern English architect, Sir John Soane was one of the most influential and original of all English architects. Working in London in the late 18th and early 19th centuries, he produced designs for both private residences and institutions, most notably The Bank of England and elements of the Prime Minister's residence in Downing Street.

Soane's work was characterised by the simplification and stylisation of classical form and detail.

He produced designs of quite extraordinary modernity which even today serve as an inspiration to contemporary architects.

Soane's unique ability to combine classicism and modernity is seen no better than in his designs for chimneypieces. The simplicity and

refinement of detail that he uses will suit both contemporary and traditional interiors alike.

Soane's greatest legacy was the museum he created at Lincoln's Inn Fields in London, which houses innumerable classical artefacts, drawings and works of art and is considered by many to be the finest historic 'house' museum in the world.

## ONLINE ARCHIVE

Soane's archive of chimneypiece drawings numbers nearly 200 in total. These can be viewed on a website specially created for this purpose at:

Chesneys is able to reproduce any design contained in this archive to order.

Shown here in statuary marble with the 22" Byron forged steel fire basket and black slate hearth and slips.

# THE LUTYENS COLLECTION

‘...tradition to me consists in our inherited sense of structural fitness, the evolution of rhythmic form by a synthesis of needs and materials...’

*Sir Edwin Lutyens*

THESE CHIMNEYPICES BY SIR EDWIN LUTYENS HAVE BEEN CAREFULLY CHOSEN TO SHOW HIS UNIQUE ABILITY TO TRANSLATE THE TRADITIONAL ARCHITECTURAL VOCABULARY INTO NEW FORMS THAT SUCCESSFULLY COMBINE CLASSICISM AND MODERNITY

**S**ir Edwin Lutyens (1869-1944) is widely regarded as one of the greatest British architects. The scope of his work was enormous, encompassing a wide variety of styles and including private residences, garden landscapes, commercial buildings and war memorials.

Lutyens' style was never derivative and always bore the mark of his own unique touch. His genius lay in his ability imaginatively to adapt traditional architectural styles. His chimneypiece designs have a timeless quality deriving from their robust, unfussy detailing and well proportioned architectural form and it is this quality that renders them so suitable for both period and contemporary interiors.

Chesneys is proud to reproduce a collection of some of Lutyens' finest designs for chimneypieces with the blessing of the Lutyens family and of the Lutyens Trust in a co-operative endeavour that is the first of its type.

THE ADAM COLLECTION

SIX CHIMNEYPieces  
SELECTED FROM OVER 300  
DRAWINGS FOR CHIMNEYPieces  
HELD AT SIR JOHN SOANE'S  
MUSEUM AND CHOSEN TO  
REPRESENT THE DIVERSITY AND  
ORIGINALITY OF HIS WORK

# THE ADAM COLLECTION

A COLLECTION OF EXACT REPLICAS OF DESIGNS FOR CHIMNEYPICES FROM DRAWINGS FROM THE OFFICE OF ROBERT AND JAMES ADAM

THE ADAM COLLECTION IS MADE UNDER EXCLUSIVE LICENCE FROM SIR JOHN SOANE'S MUSEUM, WHICH HOLDS THE LARGEST COLLECTION OF DRAWINGS BY THE GREAT 18TH CENTURY ARCHITECT

Robert Adam  
(1728-92)  
was the most  
influential and  
original architect  
of his age

Robert Adam is rightly credited with the popularisation of the style that is known as Neo-classical and which defined the later Georgian period. Returning to England from Italy in 1758 he introduced a style of architecture and interior decoration based on design ideas from ancient Greece and Rome, interpreting and applying this classicism in a light and playful manner.

Sir John Soane, himself an architectural visionary, described Adam's work as a "revolution in art" and it unquestionably influenced every aspect of interior decoration during the late 18th century. Adam devoted much time to applying this new form to the design of fireplaces, recognising, like all great architects, that a successfully executed fireplace is the key to the balance and symmetry of a room.

## ◀ THE LOCKE

Designed in 1775 for William Locke Esq., for 21 Portman Square, London, a property built by the Adam brothers three years earlier. Locke was an art connoisseur and patron who started his collection following a Grand Tour in 1749.

Shown in statuary marble with the Croome brass fire basket and black slate hearth and slips.

The notoriously parsimonious Sir Edward simplified the design of this chimneypiece to reduce its cost and it survives in situ in the property.

## THE GEORGIAN SOCIETY

THE FITZROY CHIMNEYPiece WAS SELECTED BY THE GEORGIAN GROUP TO REPLACE A PAIR OF CHIMNEYPieces LOST FROM ITS HEADQUARTERS IN FITZROY SQUARE IN CENTRAL LONDON

**T**he Georgian Group is the national charity dedicated to the preservation of Georgian buildings and gardens throughout Britain. Every year the Group helps save many important buildings and is instrumental in preserving Britain's unique architectural heritage.

Sales of every Fitzroy chimneypiece will produce valuable revenue for the Group. As with so many charitable bodies, it relies heavily on public support and it is hoped that sales of this chimneypiece will contribute substantially to the Group's funding requirements.

---

'The Georgian Group is very pleased to be working with Chesneys on this project. The Fitzroy is a handsome chimneypiece, and in keeping with the rest of Chesneys Georgian collection, offers the opportunity to own a replica classical chimneypiece with historically accurate detail.'

# BESPOKE SERVICE

---

WE CAN MAKE A FIREPLACE OF ANY DESIGN, BE IT A REPRODUCTION OF A VALUABLE ANTIQUE OR IN THE MOST CONTEMPORARY STYLE

We can produce a fireplace in any material, working from photographs, magazine cuttings, sketches or drawings. The successful production of a bespoke fire surround can rely on many specialist skills: designer, draughtsman, architectural historian, clay modeller and finally, mason, carver and metal worker.

Our long established and experienced bespoke department harnesses all these skills. The range of products that we undertake is hugely varied with many clients wishing to commission individual pieces.

### AN IRISH COUNTRY HOUSE

When London based interior decorator Susie Beart was asked to decorate an 18th century Irish country house she came to Chesneys for the chimneypieces. By commissioning bespoke copies she was able to specify chimneypieces of exactly the scale and style that the rooms demanded.

They were carved in statuary marble and incorporated coloured marbles traditionally found in fireplaces of the period. All were given a light antique finish in Chesneys London workshops prior to installation.

---

'USING CHESNEYS BESPOKE SERVICE GAVE US A FLEXIBILITY AND CHOICE THAT SIMPLY WOULDN'T HAVE BEEN AVAILABLE HAD WE USED ANTIQUES.

THE CHIMNEYPICES WERE A GREAT SUCCESS AND ENHANCED THE OVERALL LOOK OF THE DESIGN SCHEME'

## CASE STUDY

## A LONDON TOWN HOUSE

When Peter Wood & Partners, a long established, London based architectural practice, were retained to remodel an early 19th century listed town house in Belgravia, they came to Chesneys for all the chimneypieces.

Architect Stephen Wood and his clients were able to consult Chesneys uniquely extensive archive of appropriate period chimneypiece designs and select a number of late 18th and early 19th century examples for Chesneys to produce.

---

*Following completion of the project Stephen Wood commented*

'I HAVE ALWAYS FOUND WORKING WITH CHESNEYS A REWARDING AND STRAIGHT-FORWARD EXPERIENCE.

IN THIS CASE THEY WERE ABLE TO ADVISE AUTHORITATIVELY ON THE HISTORICAL CONSIDERATIONS GOVERNING THE CHOICE OF CHIMNEYPIECES, AND DELIVERED AND INSTALLED A NUMBER OF BEAUTIFULLY CRAFTED MARBLE CHIMNEYPIECES.'

**A CALIFORNIAN HOME**

Michael Smith is one of the most respected interior decorators in the USA. Based in California, his work encompasses major projects on both sides of the Atlantic.

For his own home in California, he used Chesneys to supply a selection of bespoke chimneypieces. Architectural in form and using materials ranging from Portland stone to richly coloured Brocatella and Siena marbles, these designs demonstrate Smith's ability to incorporate classical elements into a contemporary setting.

# THE CHESNEYS DIRECTORY

A UNIQUE OPPORTUNITY TO SPECIFY A CHIMNEYPIECE IN THE TRADITIONAL MANNER

BY OFFERING A WIDE RANGE OF ARCHITECTURAL DESIGNS AND A WEALTH OF CARVED DETAIL THAT CAN BE EXECUTED IN A SELECTION OF AUTHENTIC MATERIALS, THE DIRECTORY COMBINES ALL THE ELEMENTS THAT ARE REQUIRED TO CREATE A TRULY BESPOKE FIRE SURROUND

The Directory contains architectural drawings or 'patterns' for some of the most elegant and popular chimneypiece designs of the 18th and 19th centuries. The 'anatomy' of each design is clearly labelled to enable the specifier to consult the appropriate section of The Directory and select the carved detail for each component and the material in which it is to be carved.

Every carved component offered in The Directory has been copied from an original chimneypiece that has at some time been part of Chesneys stock. This technique guarantees total authenticity of detail, as the carver is not being asked to interpret an illustration but rather to exactly replicate the original form. Every carving is entirely hand produced without the use of any copying machinery, and polished and waxed to an antique finish.

The Directory is a unique resource and is rapidly becoming the standard manual for anyone seeking to recreate an authentic and architecturally correct period chimneypiece that bears the hallmark of personal choice. The programme is available in interactive form online on the Chesneys website and as a traditional printed manual.

## RE-DEFINING STONE

### ARCHITECTURAL SERVICE

#### DESIGN

Our in-house design capabilities allow us to develop our clients' concepts and improve on designs. This may involve preserving classical proportions, refining the detailing, saving on costs, or enhancing functionality.

Using cutting edge post tensioning innovation alongside traditional building methodologies, our architectural team will develop your designs using 3D modelling and AutoCad, redefining stone and it's application within your project.

#### ENGINEERING

Structural engineering expertise underpins our design work. Our engineers calculate loadings and assure the integrity of structures. Combining this with our architectural know-how guarantees buildability on site and full compliance with Building Regulations.

#### PROCUREMENT

Our materials are quarried from proven sources of premium-quality stone and marble. We hold stocks of our core materials, which shortens delivery lead times.

Where a client specifies a different material, we will advise on its suitability and organise delivery to our production plant.

#### PRODUCTION

Highly skilled carvers and masons prepare the stone and marble to our design team's precise instructions. Our capacity makes it possible to meet tight delivery schedules.

#### INSTALLATION

An in-house team of stonemasons led by our Project Director is responsible for the entire installation process – from delivery to dusting off the

completed stonework. They understand the dynamics of construction sites and the demands of lifting and placing heavy and valuable stone safely in a challenging working environment.

## NO NEED FOR A CHIMNEY

Sometimes it isn't possible to install a working fire. There may be problems with the chimney or no provision for a working fireplace. A fire from Chesneys Bio Ethanol Collection will provide an effective solution with living flames, efficient heat output and no need for a chimney.

Bio Ethanol fires are clean and convenient to install. Extracted from plants, the fuel is ecologically friendly and the only by-products released during burning are water vapour, CO<sub>2</sub> and heat. Installation is simple; providing ventilation requirements are satisfied and an electricity supply is available, an ethanol fire can be installed in just about any location.

The Chesneys Bio Ethanol Collection includes fires to fit most fire baskets and grates in our range as well as ribbon burners to suit the most contemporary of interiors.

The collection is split between manually ignited fires and those with automatic ignition and/or remote control.

EFB750 Bio Ethanol fire shown with patinated silver panels and black steel external frame

## AUTOMATIC AND REMOTE CONTROL BIO ETHANOL FIRES

These fires are easy to operate; either ignited by remote control or manual automatic ignition so there is no need to use a hand held fire lighter of any description.

Every fire has numerous safety sensors which monitor temperature, movement of the device and fuel levels and ensure that it is impossible to misuse the appliance.

Every fire has a number of easily adjusted flame settings which govern the consumption of fuel, flame height and duration of burn.

Some models are compatible for use with home smart systems.

Uniquely, these fires burn vapour from the ethanol fuel rather than the fuel itself and as a result the burning process is genuinely odourless.

### EFB750

The EFB750 ribbon burner can be installed as an inset fire with interior panels in a selection of reflective metal finishes or as a free standing fire. This model is operated by single button manual automatic ignition. The fire has a heat output of 4.0 kilowatt and a burn time, depending on flame setting, of up to 5 hours.

AT THE HEART OF EVERY FIREPLACE IS THE FIRE ITSELF, BUT IN TODAY'S BUSY WORLD MOST PEOPLE DON'T HAVE THE TIME TO BUILD AND TEND A REAL FIRE

Chesneys Alchemy Collection of gas fires can provide the solution, offering the beauty and warmth of a living fire at the flick of a switch. A wide range of products include coal and log effect fires to suit the Chesneys range of fire baskets and dogs, glass fronted gas fires and minimalist gas ribbon burners.

## EFFICIENCY

In an era of soaring energy costs Chesneys are committed to supplying products that deliver the highest levels of efficiency with minimum running costs.

## FUNCTIONALITY

Alchemy fires harness the latest technology featuring thermostatic room temperature control, variable flame settings and heat output regulated by remote control.

## REALISM

Our fires are designed to replicate the flame patterns of a real fire, with a deep life-like glow that is almost indistinguishable from a natural fire.

## SAFETY

The Alchemy range has been tested and certified by the UK's leading independent test laboratory and all appliances conform to British Safety Standards.

## ALCHEMY DFE LOG AND COAL FIRES

Chesneys exclusive range of fire baskets and decorative urns can all be used with its Alchemy DFE range of gas log and coal fires which look extraordinarily life-like with realistic flame patterns and a deep glow.

Both manual and remote control versions are available.

# OLYMPUS RANGE OF ELECTRIC FIRES

IN MANY SITUATIONS IT IS IMPRACTICAL TO INSTALL A WORKING FIRE USING SOLID FUEL OR GAS EVERY LIVING ROOM SHOULD HAVE A FIREPLACE AT ITS HEART AND IN MANY MODERN BUILDINGS AND PERIOD CONVERSIONS ACHIEVING THIS CAN BE A CHALLENGE

Chesneys can provide an effective, attractive and realistic solution with its range of Olympus electric fires.

These fires do not require a chimney, flue or pipe work and there are no regulatory or planning issues in relation to their use.

Installation is easy with the fire plugging into a 13 amp socket. The electric fires are an aesthetic effect only and do not provide heat.

SELECTED FIRE BASKETS FROM THE CHESNEYS RANGE ARE NOW AVAILABLE WITH LOG EFFECT ELECTRIC FIRES.

ULTRASONIC TECHNOLOGY IS USED TO CREATE A FINE MIST THAT IS ILLUMINATED TO PRODUCE UNBELIEVABLY REALISTIC FLAMES AND SMOKE.

COMBINED WITH AN ATTRACTIVE LOG SET AND A GLOWING ASH BED, THE RESULT IS AN ELECTRIC FIRE THAT EXCEEDS ALL EXPECTATIONS FOR REALISM.

Shown left, The Soho fire basket and Spherical steel fire dogs are now available with an Olympus DE18 log effect electric fire. Shown here with the Devonshire fireplace in limestone, Modern steel slips and black slate hearth. Electric fires can be used with Chesneys Soho, Osborne, Fibonacci and Byron fire baskets. They are an aesthetic effect only and do not provide heat.

# ELECTRIC STOVES

CHESNEYS ELECTRIC STOVES PROVIDE A REALISTIC ALTERNATIVE TO A SOLID FUEL OR GAS FIRED STOVE WITH A HIGHLY REALISTIC LOG EFFECT FIRE AND A DISCREETLY HIDDEN FAN HEATER

Chesneys range of stoves are renowned not only for their cleanliness and efficiency but also for their good looks. The Salisbury is now available in electrified form, in either standard or large size.

A 2kW fan heater provides heat with a choice of two settings and the flame effect fire can be used independently of the heater to provide a cosy ambience when heat is not required.

The flame effect is produced using LED technology, whilst the realistic fuel bed is created from real logs and stones making each stove truly unique. Available in a black painted finish.

Shown right, the Salisbury large electric stove is shown in the Burlington limestone surround from the Contemporary Collection.

## GUIDE TO DIMENSIONS AND MATERIALS

The diagram below identifies the key dimensions common to most fireplaces. Throughout this brochure these are the dimensions that will be given for every design.

All fireplaces in this brochure can be made to bespoke sizes on request.

Chesneys products are handmade and therefore subject to a tolerance of +/- 5mm on stated dimensions.

Although Chesneys will work in any stone or marble, the core collections are carved from the following range of materials sourced from particular regions and quarries.

### Statuary marble

A highly prized dense white marble ideally suited for fine sculptural work quarried in the Hebei mountains south of Beijing.

### Carrara marble

A grey marble with grey veining extracted from the Polvaccio or Michelangelo quarries in Carrara in Northern Italy. This marble has been used in countless classical buildings and monuments.

### Limestone

A tough limestone with a smooth creamy appearance quarried in the mountains of Limya in Turkey and Porto Mos in Portugal.

### Bianco Avorio

A roughly textured limestone with attractive fossil displays quarried near Florence in Northern Italy.

### Emperador

Quarried in the province of Valencia, Spain, this marble has finely streaked elements of variable colour ranging from brown to beige, set in a beige cement.

### English Bathstone

Quarried in the west of England since Roman times, our Bathstone is found near Corsham in Wiltshire and is of a mellow rough appearance.
