## *Cologne Fireplace*

Perla White Surround

*Pictured with oyster chamber, 3 piece granite slip, black granite hearth and TR55 Curved Wide Stove.*

Ivory Pearl

An off-white colour resembling ivory. This stone has an abundance of richness.

Perla White

A crisp white colour complemented by a subtle shine. This stone will bring brightness to any room.

Crema Marfil

Popular classic cream natural marble with distinctive veining that is stylish and sophisticated

Portuguese Limestone

A natural matt finish stone, with coloured veins on a light background add to the individuality of this wonderful material.

Agean Limestone

A soft, speckled grain defines this matt finish stone. It's light colour adds a delicate finish to any room

Italian Marble

A white colour elevated by its veins and lustrous sheen, it adds opulence to its surroundings.

Black Granite

Jet black colour, very hard wearing and timeless.

## Choosing the right fireplace

A fireplace becomes the focal point of any room, so choosing the right fireplace is essential in creating an atmosphere of warmth and style in your home. With a wealth of experience in fireplace design and manufacture, we are passionate about our expertly crafted fireplaces and offer an extensive range of traditional and contemporary fireplaces in a range of finishes. When choosing your fireplace, there are a number of considerations to take into account.

### CONSIDERATIONS

- *The type of heating system: solid fuel, gas or electric*
- *The overall look you wish to achieve: traditional vs contemporary*
- *The available width and height for the fireplace*
- *The type of material you wish to choose: Ivory Pearl, Perla White, Crema Marfil, Portuguese Limestone, Agean Limestone, Italian Marble and Black Granite.*
- *The care and maintenance required*

## Caring for your fireplace

Natural stones, marbles and granites are materials naturally formed over millions of years. They have very individual features and characteristics. Each piece is hand crafted to show these natural materials at their best and will form the centrepiece in your home.

Your fireplace surface requires a minimum of maintenance to keep it looking as good as new. Dust down regularly with a soft, clean brush and occasionally wipe over with a damp cloth. Consideration should be given to the placement of heavy ornaments. As with all natural materials, exposed areas may fade in strong sunlight. Your natural stone fireplace is quite durable and has been treated with a sealer to help protect and maintain the surface. In the event of an accident, soak up spillages immediately. Buff with a soft, dry cloth. In the event of staining, contact your local stone mason for a specialist cleaning kit.

To be fitted against a concrete wall.

Chamber Staggered Stone Oyster (pieces)  
Size: 530mm wide x 190mm high

Chamber Staggered Stone Oyster (corner piece)  
Size: 260mm wide x 190mm high

# SKAMOLEX PANELS

Skamolex panels are ideally suited for lining stoves, fireplaces and gas fires and are capable of withstanding temperatures of up to 1100°C. They are made from exfoliated vermiculite and are non-irritant, odourless and clean to handle.

## ► BENEFITS

- High insulation capacity = better performing stove
- Environmentally friendly - better combustion + cleaner waste gasses
- Ideal for fire chambers and inglenooks
- Ideal as a heat shield above a free standing stove
- Easy to use and cut to required size)

## ► PANEL DESIGNS

Skamolex panels are available in six standard patterns, ranging from traditional masonry look to three designs matching the trends of current fires and stoves.

Available in:

- 1000 x 610 x 20mm
- 1000 x 610 x 25mm
- 1000 x 1260 x 20mm (Plain only)
- 1000 x 1260 x 25mm (Brickwall only)
- 1000 x 610 x 25mm VIP – 900 Plain Skamolex

(Ideal for replacing internal stoveboards)

**Loose Vermiculite -  
loose fill insulation**

Available in 100 litre bags
