Made to impress

Quins

furniture

Welcome to our range of handcrafted wooden fire surrounds.

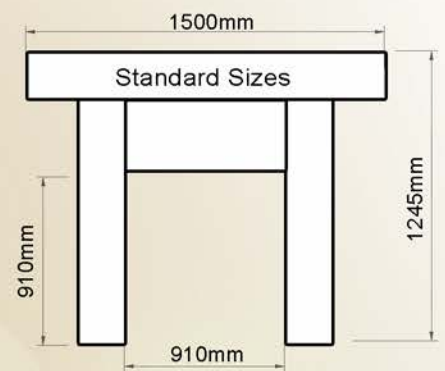

Our designs take influence from classic antique fireplaces and are made using traditional skills and premium materials to bring a luxury focal point to your home.

We take great care in the design of our surrounds to achieve balanced proportions that work in the majority of homes, but we also happy to tailor sizes to your individual requirements.

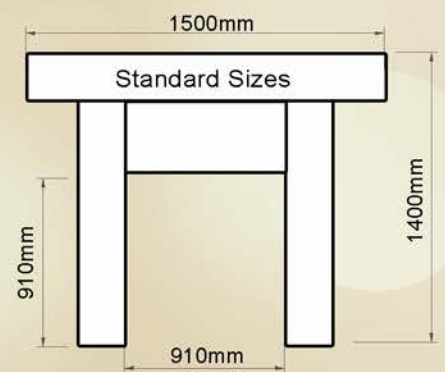

If you have something different in mind we offer a full bespoke service and can make the fireplace of your dreams from the timber of your choice, unique and created just for you.

"I DID IT MY WAY"

Client had seen a marble fireplace he liked, used it as a starting point and had this surround made in burnished mahogany to the sizes he required, incorporating a bespoke carving with his house name and thistle referencing his Scottish roots.

A good example of correct proportions, this surround is 2.44m wide x 1.8m high. The top beam is 100mm thick x 300mm wide x 2440mm long and it took four men to position it. Despite the very large size it fitted perfectly to the scale of the long room with very high ceilings and the interior designer that specified it got it just right

A large surround to be placed in front of a brick stove chamber, approx 2m wide it was supplied primed and undercosted so that it could be painted the same colour as the walls.

A large Chisum surround in burnished Oak is 1700mm wide x 1660mm high and the proportions work well with chimney breast the stone chamber and high ceiling.
